

bksb Vocational Workbooks

Learning resources set in a vocational context to give relevance to learning.

Vocationalised versions of bksb have been produced to combat the problem of learners not perceiving the relevance of improving maths and English, subjects they thought they had left behind. Take, for example, an apprentice working towards an NVQ in Hairdressing. S/he would be given Num/AoN for Hairdressing Levels 1 and 2. The learner will work through the generic examples and exercises in the bksb learning materials, but have the added bonus of development work for each skill specifically related to their vocational interest
